BAIN PREVENTS THE GAME BETWEEN THE BROOKLYNS AND NEW YORKS And Also Keeps the St. Louis and Chicago

players Indoors—Bostons at Last Win a Game From the Philadelphias and the Pittsburgs Defeat the Cincinnatis—Notes. Four of the League clubs took an enforced hy-off yesterday, rain preventing the scheduled games at Erooklyn at St. Louis. The New Yorks went over to Washington Park to wind up the first series with the Champions, but rain was failing so heavily that a postponement was decided upon three-quarters of an hour before the contest was advertised to start. Boston succeeded at last in winning a game from Philadelphia, but the victory did not hoist the club out of last place; nor did the Quaker club's defeat force it to relinquish the lead. The Cincinnatis lost to Pittsburg and the two clubs are tied for fourth place. St. Louis and Brooklyn maintain their hold on second place, Cincinnati having fallen back a peg by losing o Pittsburg. Chicago and New York are near the bottom of the ladder, but at this stage of

#### WAIT NOT AGAIN IN FRONT.

THE FONSO COLT SCORES HIS THIRD VICTORY AT AQUEDUCT. Another Double Win for the Holland Stable

-Gold Lack Graduates From Matden Class Silurian and Einaldo Also in Front. The Queens County Jockey Club entered on the second week of its spring season at Aqueduct yesterday and enjoyed a big slice of its customary good luck. Up to the time the first and second specials were sent away from the city well filled, patrons saw nothing in the atmospheric signs to check the ardor of their swoop on the scene of racing, but when they reached the course it was rapidly reduced to a quagmire by an April deluge. Every one was forced to scamper for shelter to the covered stands and betting ring, and the rain kept them close prisoners until after the second race Then Jupiter Pluvius relented and the balance of the afternoon was spent in genial spring sun-

shine. Meanwhile the track had suffered but owners and trainers stood to their guns pluckly and only two scratches were posted on the first half of the programme. In the handicap, however, it was a different story and the blue penci almost out the field in two. Still this event maintained its prestige as the most important on the card, and opinions as to the relative merits of the five remaining candidates were so divided that all but one was backed down while his price stood firm. Wait Not was played from even money to odds on, Boney Boy's odds dropped from 4 to 1 to 7 to 2, the figures posted against Maximo Gomez were cut from 5 to 1 to 4 to 1, and a plunge on the outsider Lamp Globe reduced his price from 20 to 1 to 12 to 1. Kris Kringle, the Western candidate opened and closed at tens Maximo Gomez was first off and McJoynt took him clear of his field. The gift horse cut out a merry pace all the way until turning out of the back stretch with Lamp Globe next. At this

merry pace all the way until turning out of the back stretch with Lamp Globe next. At this stage O'Connor moved up with the favorite and, drawing right away, won easily by a length and a haif. Lamp Globe hung on gamely and beat Maximo Gomez four lengths for the place. The time was remarkably good considering the state of the going.

The only other favorite to pull through was Newton Bennington's Rayon d'Or gelding Gold Lack, who easily graduated out of the three-year-old maiden class after Suniol had led him for haif a mile. In the opening dash for two-year-olds Eugene Leigh showed Silurian, a coll by Belvidere-Virgie D. He was well played by followers of the "farmer's" stable, but the weighty money poured in on Bilionaire. Frank Regan's Victory coll Sempire also found support, but killed his chances by running away at the first break and making a complete cfrout of the track. Sempire essayed the task of pacemaker when the flag went down, but he curled up within a furlong and Silurian rushed to the front, where he stayed to the end, winning by a head from Billionaire. The talent again went astray in the second race. The Corinthian ruled first choice, but made as bad a showing as he did last week, George Emmons, at fancy odds, took them all in tow for half a mile. Then Rinaldo came along and getting his head in front, kept it there to the end. Robert Bonner seemed dissatisfied with finishing eighth and he caused a flutter by going right on and covering two miles and a half before he could be stopped.

The leature of the last two races of the day was the double winscored by J. I. Heilland. This is becoming a favorite diversion with the popular local horseman. He brought off the trick on the opening day with Her Ladyship and Skyscraper, and yesterday he was successfully represented by Her Ladyship and Lief Prince, both at remunerative odds. Jockeys Bullman and O'Congor each rode two winners.

LEXINGTON, April 28.—Trainer Julius Bauer left this afternoon for Gravesend, having in charge three carloads of racers belonging to A. Featherstone of Chiengo. The string of twenty four is headed by Mesmerist, the champion of the two-year-olds last season, and Indian Fairy, also in the three-year-old division. A. Featherstone, owner of the horses, says \$100,000 would not buy Mesmerist and Indian Fairy.

NEW HAVEN, April 23 .- Yale, Harvard and Princeton have finally agreed upon a football schedule. It has not been easy work, the matrespondence. Last year Yale met Harvard first and closed with Princeton. The Yale man agement wished to duplicate it this year. Harvard, however, objected and so the schedule arranged is as follows: Yale vs. Princeton, at Brokaw Field, Princeton, Saturday, Nov. 17; Yale vs. Harvard, at Yale Field, Saturday, Nov. 24. ter having been the subject of an extensive cor-

\$8,000 Purse. All that is required now to clinch a limited ound battle between Tommy Rvan and Kid McCoy is to sign articles of agreement. Yesterday Ryan through his manager, Billy Brady, accepted the offer of the Chicago club and consented to meet the Kid for a \$6,000 purse. The date of the mill, which will be for six rounds, is fixed for May 23 McCoy has consented to weigh in at 158 pounds at 6 o'clock as asked for by Ryan. Malachi Hogan of Chicago has been named by the Kid as the referee, but it is not likely that he will be referee, but it is not likely that he will be chosen, as Ryan objects.

McCoy said yesterday that he will not split the purse. He deciares that he will only fight on a basis of \$5,000 to the winner and \$1,000 to the loser. Brady has an appointment this afternoon, when it is probable the papers will be signed. McCoy has covered the club's forfeit of \$500 and Brady says that he will do the same for Ryan to-day.

Jack O'Brien and Billy Moore Fight To-night. Jack O'Brien, who has not done any fighting in he Fast since his battle with Frank Erne last year, off for Troy last night in company with his manager, Tom O'Rourke. O'Brien is matched to fight Billy Moore of Syracuse at Troy to-night. O'Brien told THE SUN reporter that he is in me shape, and expects to win handliy. O'Brien is also booked to meet George McFadden at the Broadway A. C. on next Tuesday night for twenty five rounds.

Kid Broad and Jack McClelland Matched. Joe Macias, manager of Kid Broad, yesterday matched his protege to meet Jack McClelland of Pittsburg in a twenty round bout at Cleveland on May 1. BOARD OF CONTROL REVISING THE RULES OF THE N. C. A.

Width of Motor Pacing Machines Restricted

-Conditions Under Which "Major" Taylor and the Butler Brothers Can Be Regis-tered-Preparing for L. 4. W. Meet. The Board of Control of the N. C. A. began its adjourned session at Buffalo yesterday. The matter of revised racing rules was the most important before the meeting, and those relating to motor machines were the most troublesome According to advices received here, some interesting points were decided. No motor machines used for pacing may hereafter be wider than twenty inches, except in the handle bars, with a special permission from the board. This will effectually shut out such steam machines as those used by McDuffee and Tay lor, which afforded as much protection as a wind shield. This is a rule the necessity of which was pointed out in THE SUN last fall Another rule much needed is that after July 5 every rider in a track race must wear black trunks, which will do away with some of the soiled and unseemly exhibitions of white and light pink tights. The words "assistant referee" were substituted for the title of umpire in various parts of the rules. In regard to "Major" Taylor, the Butler brothers and others now beyond the pale, it was decided by a vote that they would be registered by the N. C. A. if they settled their difficulties with the American Racing Cyclists' Union, which is to hold its spring meeting at Louisville. J. R. Dubois, Brockton, Mass., and Benjamin Monroe of Memphis were restored to good standing. Regarding the limitations upon the horse power of motor cycles, it is likely that a limit of cylinder

Milwaukee has begun the work of preparing for the national meet of the L. A. W., which is to be held there from July 10 to 15. A permanent Executive Committee, having in charge the meet arrangements, has been organized with A. D. Meiselbach as chairman. Associated with him will be F. P. Van Valkenburg, the leader of League forces in the West, and Otto Dorner, for three years chairman of the L. A. W. Highway Improvement Committee. An outline of the programme shows: An entertainment at a local theatre for one evening; another evening devoted to social receptions at various clubs throughout the city; a third will be taken up by an all-night smoker, which has become a feature of the national meet; a fourth evening will winess races on the track. In addition, there will be excursions on the bay and Milwaukee River, social gatherings and visits to places of public interest. As a novelty, one day will be devoted to good roads. This will be made interesting, not alone to wheelmen visitors, but to farmers throughout Wisconsin and addicent States. The programme for this day is in charge of Senator J. H. Stout of Menominee, one of the best known and most practical of good roads advocates in the United States. Congressmen Davidson, Otto Dorner, F. F. Merrill and F. M. Harbach will also serve on this committee. The Citizens Business. League will encourage a congress of farmers and other good roads enthusiasts on that day, thus bringing into contact the two classes—wheelmen and farmers—who are most vitally interested in the road question. A feature will be a one-mile straightaway multicycle race on Grand avenue. There will also be an excursion in a genuine threamasted sailing schooner upon lake Michigan. The N. C. A. will furnish the races and these will be among the most prominent features on the programme, as the national championships will practically be decided at that time. The N. C. A. & A. A. W. Will work together on the meet for mutual benefit. the meet for mutual benefit.

The March mileage competition for a free coaster brake was won by C. H. Brarsh, who who rode 1,805 miles. S. E. Belcher won the February contest with 1,300 miles. These are the records accepted by H. E. Ducker, the chairman of the C. R. C. Records Committee. chairman of the C.R.C. Records Committee. The competition is open to every one and the coaster brakes are distributed by a local repre-sentative as soon as the records are verified.

The derivation of the term "coasting" as The derivation of the term "coasting" as applied to riding on a bicycle with the feet of the pedals or without working them has often been sought for by wheelmen, although it has been in use for years in sledding. An English writer offers an ingenous and a poetic explanation. He says that the term is applied to birds who, when approaching a shore from over a sea, drep their wings and practically slide down through the air at an accelerated speed with their wings at rest. He says that this fact is well known to naturallists and that the expression has for a leng time been applied to such flights. This is a pretty thing for coasting eyelists, but it hardly suits the etymological facts, which indicate a very honest descent of the term and its application from the Old French.

very honest descent of the term and its application from the Old French.

If there were no other benefits to be derived from the League of American Wheelmen and if the sentiment of strengthening the organization in its general work was not strong enough, the work that is being done by the Touring Department of the League should be sufficient reason for every rider who goes on a tour or rides from one city to another or projects doing either to join and retain his membership. Last year the Touring Committee got well established and collected volumes of up-to-date information concerning routes and road conditions and hundreds of riders were ably aided. The committee even went beyond the limits of this country, and, as is, or should be, well known, made alliances with foreign organizations which secure to L. A. W. members when touring abroad all the benefits of being a member of the English and European organizations. The new touring committee that was recently appointed with George M. Schell of Philadelphia as chairman, is now deep in the work of preparing for the present season. A change in the plan of operation has been made, whereby requests for routes between "local" points will be referred to the member of the committee residing nearest the applicant. The chairman will exercise supervision over the entire department and furnish the "trubidline," or long-distance routes, of these latter it is expected that fifty will be repared and they will be used by tourists between intermediate points, as well as the covering the cutter distance. Side paths will be used in the routes a far as possible. When routes are furnished the applicant will be requested to make suggestions for improvements after the trip has been made, and these will be systematically filed for reference to following applicants. INTERNATIONAL REVOLVER MATCH. No French Challenge Received by the United States Association.

Members of the United States Revolver Association who attended a meeting at the Army and Navy Club, 18 West Thirtyfirst street, last night, to accept the challenge of French experts for a cable match, were in the same position as the rusties at a country fair who fail to find the pea under the walnut shell. No challenge was on hand. The situation was explained by Lieut. Sayre, who was at Croton Dam with his company of Troop A, when a registered letter arrived from France, addressed to him as President. He notified Secretary Wilder to issue a call for the meeting and upon opening the letter found it to be from a revolver shooter at Renne, general in character and presuming that the Americans had already hallenged France. The following well-known

challenged France. The following well-known rifle shots were present.

Dr. C. T. Adams, W. E. Carlin, A. A. Cohen, John W. Christiansen, Charles H. Chapman, A. S. Frank Inn, A. C. Gould, Gorge S. Ges, W. H. Hall, A. L. A. Himmelwright, A. S. Jones, Sergt W. E. Petty, Lieut. R. H. Sayre, Gen. Bird W. Spencer, H. Schrager and B. F. Wildet.

In place of the expected challenge, Secretary Wilder read an engrossed director issued in France and reiterating the conditions of the match as agreed to by the U. S. R. A. at its last meeting. The only change is that the Frenchmen are willing to submit the names of their representatives eight days before the date of contest, while the U. S. R. A. agreed to give only twenty-four hours' notice. From the circular it appears the French committee also considers the match ratified. H. asks for volunteers to represent France and has the names of the following well-known French revolver experts attached:

M. M. C. Come Clary, President: Gaston Renette, M. M. C. Comte Ctary, President; Gaston Renette, secretary: M. Bonzen, Comte Z. de Chabannes la Pallee, Capt. Chanchat, Capt. Ditschneider, M. Faure, M. Labbé.

M Labbe.

There was considerable discussion on the situation in which it was brought out that a cable message announced the sending of a formal challenge by Comte Clary. The feeling was strongly against continuing negotiations for a match unless a formal challenge is received, and on motion of A. I. A Himmelweight, seconded by C. H. Chapman, the following resolution was passed:

If the U. S. R. A. does not receive a challenge from France this week the Executive Committee be empowered to communicate with the Tresident of the French committee, stating the position of the U. S. R. A.

Some of the members thought that the fallows

U. S. R. A.

Some of the members thought that the failure of the Frenchmen to send a challenge was caused by the arrangement, since negotiations began, of an international team revolver contest to be held at the Paris Exposition, at Camp Santry, and the desire of the Parisians not to detract from the Exposit on fixture by a cable contest to be held previously.

The matter of holding an American amateur championship was brought up, but it was decided to defer naming a date for the contest until a definite answer is received regarding the international event.

until a definite answer is received regarding the international event.

Meantime the local shooters express confidence that there will be a match with the Frenchmen, and arrangements are being made for practice shoets. The style of weapon most suited to the contest is being discussed, the tisalibre Sinith & Wesson revolver receiving the preference. Nightly competitions for medals will be held at Conlin's gallery, and Thursday of each week will be set aside for matches in which the Gaston-Rennette target will be used.

#### ROWING AT HARVARD.

Crews From Which the 'Varsity Will Be

A decided step toward the selection of the Harvard Varsity crew has been taken by picking a first crew at both the Weld and Newell clubs. Second crews have also been made up

the end of the week, the result of which will determine the choice of first and second freshman crews.

CAMBRIDGE, April 23 - It will be news to rowing men in general and Harvard men in particular to learn that E. C. Siotrow, coach of the Harvard Varsity oarsmen, will not accept a reautointment next year. For some time he has been considering the question, and only a few days ago he made up his mind to retire after the present season. Mr. Sterrow will not sever all relationship with rowing here, but will be found as ready as ever to give the benefit of years of experience when it is desired, but he will not assume the entire responsibility of developing and rounding out the Varsity oarsmen. Discussing the subject he said.

"Nothing would please me better than to hold my interest in the development of the crew, providing I was not compelled to stick so closely to the work. I would be pleased to run over as often as possible and render any assistance in my power."

When asked who had been spoken of as his successor he said:

"There is an abundance of competent men who can do as well as I have, and there will be no trouble in securing an efficient successor when the proper time comes."

Boston, April 23.—A statement was published here to-day to the effect that Edward Hanlon, the ex-champion oarsman, now training the members of the I mon Boat Club and the school boy crews, was likely to be engaged by the rewing authorities at Harvard to come to Cambridge and the school boy crews, was likely to be engaged by the rewing authorities at Harvard to come to Cambridge onext year as professional assistant to the rowing coach, whoever he might be, and was to replace Pat Donovan, as coach of the Weld Boat Club crews. When seen to-night Hanlon deciled the truth of the story and was very indignant that the inference should have been given that the work of his friend Donovan with the Weld Boat Club was unsatisfactory. He said that when first approached by the Union Boat Club to come to Boston to take charge of the crews and the school boys, there was some talk of his going to Harvard eventually, but he had forgotten all about the matter and thought perhaps the report that he had been ensaced by the Union Boat Club partly through the Union Roat Club partly through the Inference of Coach Storrow and his assistants had given rise to the story published to-day.
